Electrical Systems: Doodlers

Pupils explore electrical systems and motors, investigating how motorised products work before designing, making and evaluating their own motorised doodler. Through the unit, they develop skills in circuit construction, problem-solving, product design and evaluation.

PHSE/RSE

Citizenship: How can we be in control of our money?

Pupils learn how to manage money responsibly by exploring saving, spending and budgeting, helping them make informed financial decisions.

Science

Forces

In Year 5, children explore how forces affect the world around them. They learn about gravity, friction, and resistance, and investigate how these forces can change an object's speed, direction, or shape. Pupils also discover how simple mechanisms like levers, pulleys, and gears help make work easier. Through hands-on experiments, they develop their scientific thinking and understanding of how forces are used in everyday life.

R.E

Unit 2.11

Why do some people believe in God and some people not?

Year 5 – Summer 2

P.E

Invasion Games

Pupils develop skills in invasion games by learning how to maintain possession, attack and defend effectively. They apply tactics, improve their teamwork and communication, and evaluate their performance to enhance game play.

Geography

Economic Activity and Trade

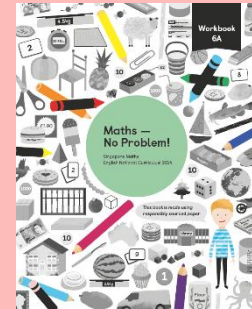

Pupils explore how goods and services are produced, traded and distributed around the world. They develop an understanding of economic activity, global trade links and the impact these have on communities, countries and the wider world.

Roman Numerals

Computing

Creating Media: Stop Motion Animation

Pupils plan, create and edit stop motion animations, developing skills in capturing and sequencing images, using digital tools effectively, and evaluating how media can be used to communicate ideas creatively.

French

Meet my French Family

Pupils learn to talk about their family in French, using key vocabulary and simple sentences to describe family members, relationships and personal information while developing their speaking, listening, reading and writing skills.
